CURRICULUM VITAE

Personal Information:
Name: Pranajit Das
Date of Birth: 28 March 2005
Permanent Address: West Bengal, India
Email: daspranajit973@gmail.com
Phone No.: 7478207706
Gender: Male
Marital Status: Single
Nationality: Indian

Career Objective:
I'm looking to build a career in Generative AI and Data Analytics. I want to put my technical skills and problem-solving abilities to good use, keep learning on the job, and get hands-on experience through internships and projects. My goal is to actually make a difference wherever I work.

Educational Qualifications:
Degree | Institution | Year | Percentage/Grade
B.Sc. in Generative AI & Data Analytics | Techno India University | 2025–Present | Ongoing
Bachelor of Science (Physics) | University of Kalyani | 2023 | Completed
Diploma in Computer Applications (DCA) | Institute of Computer Literacy and Training | 2023 | Grade A
Higher Secondary (Science) | WBCHSE | 2023 | Grade A
Secondary (Science) | WBBSE | 2021 | Outstanding

Work Experience:
I'm a fresher.

Skills & Achievements:
Technical Skills:
Python, Data Analytics, SQL, Machine Learning, Deep Learning, NLP, Prompt Engineering, Power BI & Tableau, C/C++, Java/JavaScript, HTML, Basic Full-Stack Development

Soft Skills:
Communication, Leadership, Problem Solving, Time Management, Teaching

Achievements & Activities:
- Took part in THE ESCAPE: Ideathon at Techno India University
- Pitched my concept for an AI-Powered Smart Dustbin System
- Finished several AI and Google Cloud certifications

The Hiring Manager
AstraMind Institute of Technology

Subject: Application for AI Learning Assistant (Beginner Level) Position

Dear Hiring Manager,

I'm excited to apply for the AI Learning Assistant (Beginner Level) position in the First-Year AI Lab at AstraMind Institute of Technology. When I saw this opening, it felt like a perfect match for my background and interest in artificial intelligence.

Right now, I'm working toward a B.Sc. in Generative AI and Data Analytics at Techno India University. I'm a curious learner who enjoys working with AI, data analysis, and software development. I even attended a lecture on "What is Artificial Intelligence?" recently, and it really sparked my enthusiasm for the field.

Along the way, I've picked up practical skills in Python, data analytics, machine learning, and data visualization. I've also jumped into ideathons and workshops, tackling real-world problems and working in teams. One project I'm proud of: I presented an idea for an AI-powered smart dustbin system.

I'm looking for a chance to grow, learn more, and contribute to AstraMind. I'm committed, hardworking, and ready to take on new challenges.

Thanks for considering my application.

Sincerely,
Pranajit Das
